

ENVIRONMENTAL POLICY

Territory Instruments acknowledges the essential role of environmental protection in its business operations.

The company will establish and uphold an environmental management system that complies with ISO 14001 requirements.

Territory Instruments is dedicated to the following actions:

Providing comprehensive training to ensure that our employees carry out their tasks in an environmentally responsible manner.

Ensuring full compliance with relevant environmental legislation and regulations.

Incorporating environmental considerations into project risk assessments.

Taking steps to minimize the negative environmental impacts associated with our products.

Maximizing the use of renewable energy resources whenever feasible.

Recognizing the utmost importance of maintaining an effective environmental system.

All employees, subcontractors, and visitors are expected to adhere to this policy.
