

NEED EXPENSIVE TEST EQUIPMENT? WHY NOT HIRE?

- Territory Instruments maintains a large fleet of test equipment ready for your needs.
- We can provide calibrated test equipment for emergency/short/long term hire requirements or to replace your own test equipment while being calibrated.

Electrical Instrument and Process Control Engineers

A: 1 / 4 Roni Court, Winnellie NT 0820

T: +61 8 8947 5450

Electrical Test Equipment			\$ / Day
Scope Meter	Fluke 123	Solution for industrial troubleshooting and installation applications including VDS's and instrumentation	\$105
Power Analyser	AEMC 3945	Measure and carry out diagnostics and power quality work on single or three-phase networks	\$105
Electrical Installation Tester	Metrel MI3125	Verify a complete electrical installation including insulation resistance, RCD, loop impedance, Earth resistance and more	\$105
Appliance Tester	Seaward PAC 3760 Plus	Single Instrument to test and tag all workplace appliances and electrical equipment	\$40
Solar installation test kit	Solar PV100	Test a complete solar installation; solar irradiance, earth continuity, insulation resistance, open circuit voltage, short circuit current and an operational tests	\$50
High voltage test probes	80K-40 / 80K-6	Test voltages up to 40,000 volts peak AC or DC on energy limited circuits with a standard multimeter	\$25
Insulation tester	Fluke 1507	Digital high voltage insulation tester for resistances up to 10GΩ	\$55

Logging clamp meter	Toptronic T2608	Logging AC/DC clamp meter for currents up to 2000A	\$50
Temperature Test Equipment			
Thermal imaging camera	Testo 881	Prevent or identify overheating/electrical problems with ease & accuracy utilizing a non-contact imaging system	\$220
Infrared thermometer	Fluke 66	Quick and easy non-contact temperature measurement	\$35
Dry block temperature calibrators	Fluke 1950	Calibrate and test temperature probes up to 1200°C	\$105
Pressure Test Equipment			
Digital Pressure Gauge	Crystal XP2i 10000PSI	Range of digital pressure gauges up to 10,000 PSI	\$50
Digital pressure reference recorders	Crystal nVision	Log pressure recordings over time accurately up to 15,000 PSI	\$60
High / Low pressure test pumps	Europress PL16216	Generate pressures for testing up to 1600 Bar	\$105
Instrumentation Test Equipment			
Loop calibrator	Fluke 705	Calibrate 4-20mA loops with high accuracy	\$50
Multifunction Process calibrator	Fluke 725	Calibrate all aspects of a process including temperature, pressure, loop current and electrical signals.	\$80
HART Field communicator	Emerson 475	Industry standard meter for configuring HART compatible instruments	\$80
Process meter	Fluke 789	Multipurpose multimeter for testing industrial instrumentation and electrical installations	\$30
Tube Bending	Swagelok	Stainless steel tube bending kits to cover 1/4", 3/4", and 1/2" tube installations	\$100
Cable tracing and locating			
Networks testing kit	Fluke Microscanner ²	Verify voice/data/video cable and services, trace network cable and identify network outlets with ease	\$55
Cable and pipe locator	Rycom 8879v3	Locate and trace underground services, pipes and cables	\$150
Laser test equipment			
Laser level	Pacific laser systems PLS3	Layout vertical reference points faster than a traditional plumb bob	\$30
Laser Distance meter	Leica Disto D5	Accurately find distances up to 200m instantly	\$50
Ground resistance testing			
Earth Resistance Tester	Sonel MRU-105	Multifunction tester for measuring earth resistivity, electrode resistance to ground and overall earthing performance	\$80
Clamp on Ground Resistance Tester	AEMC 3075	Ground rod and grid resistance and impedance without the use of auxiliary rods	\$50
Other Instruments			
Confined space gas detector	BW GasAlert Microclip XT	Personal gas detector for confined space entry	\$35
Tachometer	Testo 470	Optical/Contact Tachometer for high accuracy RPM measurements	\$45
Sound level meter	Trotec SL300	IEC 61672-1/ANSI S1.4 Certified sound level meter for conducting workplace sound surveys and checking noise emissions compliance	\$35
Lux meter	Testo 540	Measure lighting conditions in the workplace	\$35
Digital refrigeration manifold	Testo 550	Measure superheat and sub-cooling for up to 60 refrigerants and measure high / low side pressures and temperatures	\$40
Doppler flow meter	Greyline Instruments PDFM 5.0	Clamp on ultrasonic flow meter ideal for flow troubleshooting, balancing and checking performance of permanent flow meters.	\$200

Other test instruments available
Please contact us if with your requirements
